

Who we are

Skillshare International Ireland is a small organisation with a big mission: We work to reduce poverty, injustice and inequality and to further economic and social development in partnership with people and communities throughout the world.

What we do

We have programmes with partner organisations in Southern Africa:

- Working with people living with HIV and AIDS;
- Supporting survivors of domestic violence, sexual abuse and other vulnerable groups;
- Working with small-scale fisheries to reduce poverty through increased productivity;
- Supporting marginalised communities to realise their human rights.

Dear Minister

I welcome Ireland's commitment to the developing world and the increasing share of national income the government is dedicating to the world's poor. I urge the government to maintain this progress towards its stated target of 0.7% of GNP by 2012. I ask you to ensure that any cutbacks in government expenditure do not affect people in the world's poorest countries who need access to education and health services and measures to combat HIV and AIDS.

Yours sincerely
